CIS 525 Software Development of Parallel and Distributed Systems   Fall 2008

Lecture 25, December 2, 2008

1. **Rapid Prototyping for Parallel and Distributed Systems (chapter 19 of the course textbook; pages 405-415) - continued:**
   a). what it does?
   b). steps of prototyping process
   c). illustrating example of rapid prototyping with Petri net as methodology for rapid prototyping.

2. **Homework #4 – handouted and discussed.**
